

Comp-Utility Corporation

Systems Furniture

After building computer rooms for many years, in 1994 CUC began serving the storage needs of server farms and NOCs. Whether you need an enclosed rack, or a complete command and control center, we can easily configure the furniture requirements for you.

CUC offers a truly complete storage solution – furniture, cabling, UPS, switchboxes – all coordinated, as we have been doing for large data centers for years. A list of your equipment (with dimensions) is all that is needed to begin the space planning process.

The best way to see how CUC can solve all of your facility needs is to [request a site survey](#).

**Meeting your computer and telecom room needs is easy as ...
CUC!**
